FOUNDER INSIGHTS

6 lessons every founder should steal.

1. A **slow site = a dead brand.**
   Speed isn't a feature. It's a promise.

2. Your **logo is the smallest part** of your brand. The feeling it triggers — *that's* the brand.

3. **"Just make it pop"** is the most expensive sentence in design. Clarity > Creativity.

4. SEO isn't dead. **Lazy SEO is.** One pillar page beats 50 thin posts.

5. The best UX is **invisible.** If users have to think, you've already lost them.

6. Marketing doesn't fix a broken product. **Fix the product. Then turn up the volume.**
